IN THE MATTER OF SPIGOTS

HILLSBORO Oct 28, 1875

TO THE EDITOR OF THE OREGONIAN

Now that the election is over and decided I suppose a person might possibly be permitted to write up the other side of the question without being accused of electioneering I refer to the acts of the present county administration The paper published here in speaking of the county's finances to day says

The county commissioners have managed the business of the county very economically so far as we know Leakages at the spigot have been closely watched It may be they have The quarrels with viewers, or road supervisors or county officers over their pay for services rendered may be termed spigot watching or economy now but it was not so in the days of Jackson Now about those spigots that our board has been so anxiously watching About two or three months ago the span of the bridge across Dairy creek became so bad and the clamor of the people so loud that it was decided to patch it up The contract was let through Mr Littinger at about $3 per day to Mr S Daily for something over $100 if I mistake not At that time the prominent citizens asked that a new bridge be put straight across the stream so that it would be permanent and on a line with the road No it must be patched by a new top on rotten foundation and patched it was though the court's attention was called to its rottenness by the workmen Since that time an effort has been made to still further patch up the concern but its own rottenness would not allow the risk of putting on new stringers so they had to absolutely desist The result of the matter is that the work on the span across the creek is a total loss, so far as I can see besides the annoyance to the traveling public and risk to the county treasury by some one losing their life or property Yet they still watch that spigot closely as a means of economizing the finances The same may be said of almost every bridge in the county A communication in the Independent of day says that the Robinson bridge on the Schollis ferry road leading to Portland, is about 400 feet long and 4 feet high and the sleepers are so rotten that it is unsafe The road supervisor has moved to Portland I suppose they consider that bridges are a nuisance and contrary to public economy I suppose too that their optics are centered on the retreating form of that spigot called a road supervisor and they are calculating the amount of fees they are getting rid of paying by Spigot's absence from the county The Pointer bridge the Bacon Hill and Rock Creek bridge are samples of the condition of things where Spigot was last seen The latest grand stroke of financial ability is sending an officer out to notify men five and six miles off that their assessment would be raised $5 and up to $100 as I have been informed by men coming in where the officer's fees doubled the amount of tax to be gained There's another spigot for the Independent to blow about

Now about those taxes the Independent says it is feared the number of mills on the dollar cannot be lowered from last year What fool in the county didn't know, even before the present board of commissioners came in that that must be one of the leaky spigots for the next four years? Any man, even from Tillamook could see by our bridges and roads that taxes must be high until they are replaced Every year our people are compelled to haul small loads to Portland on account of bad roads and bridges They thereby lose more than any increase of taxes would be, and the farmers know it There is no levy of tax that would be more cheerfully paid than for making good roads and substantial bridges, if done as it ought to be done and between now and the general conflagration of the world But the people have tired of this eternal haggling and patching and mincing to their (the people's) great inconvenience and damage This thing of trying to make a very large road district sparsely settled pay for the making of roads to be traveled by the whole county bridges thrown in, is extortionate and unfair and unless the present administration go to work for the people's interest they will find themselves replaced by somebody who will do it at the next election

THE INDIAN SELF SUPPORTING

He supported himself before the whites came to this continent. He supports himself now until they drive him from his native hunting grounds He enters complaint against this aggressor and defends his natural rights in the only way he can His history shows a wish to live and a life power as strong as any persons have He endures more hardship and discomfort on smaller supplies of food and clothing than the white man can endure He gives up fishing and hunting and works in logging camp and mill or on the farm, with steadiness and fidelity when fairly paid for his toil He feels the force of the common motives such as good food good clothing and money in hand to buy what he wants At the company's office he calls for his dues every Saturday night as other laborers do. If he is tempted to drink and to gamble so are the whites He has had no early religious training They have strong moral teachings and convictions against these vices He has [illegible] early life, against whisky or gambling or other vices If he indulges in what destroys him, it is due in a measure to his lack of a right home training in childhood Most white men who live right ascribe it to their good home nurture yet many go down in spite of that The Indian often saves himself and works upward without it. The mere desire of a farm and a home has proved under the present policy of the government, a means of his self support, and has assured his personal rights and duties under the law When a man holds his person and his property under legal titles and goes into court to defend them he is by that fact regarded as a self supporting member of the community. The Indian has gained that position, if report be true, under treaty and by solemn pledge of the national government.

From the Advance of Oct. 7th, we clip the following statements

C C Royce special agent of the Indian Department to allot lands in severalty to the Sisseton Sioux under the treaty of 1867 reports that allotments have been made in Eastern Dakota to 264 Indian families According to the treaty, a patent is to issue for each of these Indian farmers which he shall have fifty acres under cultivation. These are the Sioux who were banished from Minnesota after the fearful massacre of 1863 By the terms of their treaty they have been obliged to perform labor upon their own lands as a condition of receiving government annuities Under this stimulus they have, within three or four years made large advancement in civilization In a population of 1,700 there are 270 families dwelling in log houses wearing citizens' clothing cultivating the ground and in most respects adopting the habits of civilized life By their own labor they have had 800 acres in crops this summer, from which they will harvest 14 000 bushels of grain, and 5 000 bushels of vegetables They have also broken and fenced 725 acres for additional crops next year They have six schools with eight teachers and 169 scholars; 900 can read the Sioux language 100 of whom can also read the English language intelligently; 375 of them are members of Christian churches

One hundred and sixty allotments of land have just been made among the Chippewas in Wisconsin

These are among the first fruits of the steady efforts of the Indian department to induce Indians to make homes for themselves, and there is no reason why, with suitable land necessary funds and proper teaching, all Indians can not be brought into a like condition

This one sentence reveals the Indian's status under the law "According to the treaty a patent is to issue for each of these Indian farmers when he shall have fifty acres under cultivation "

These patents, issued under the broad seal of the U S government, are legal papers, titles to be sustained in the highest courts, and every Indian who holds one can defend his rights in such a court As the report shows, 264 have gone to work and earned their right to the patent and received their allotment and no doubt also their certificate, as the Oregon claimant under the land grant received his certificate entitling him to a patent

The Chippewas in Wisconsin have had 160 such allotments, and no doubt the attesting certificates

The government in this matter is surely acting justly and wisely Its action is honorable to the nation and a rebuke to those who decry the Indian

At Dungeness on De Fuca straits a small remnant of an Indian tribe now live They indulged freely in whisky and became so troublesome that the whites petitioned to have them removed. C Eells, Esq, the agent who has the care of them, let them know that the effort was made to remove them, and that their intemperance was the cause. He told them if they would give up whisky drinking they might stay. They agreed to do it, and kept their word for some time, but on a sort of holiday they got on a "big drunk." Ashamed and afraid they took the pledge to drink no more They have bought about 240 acres of land, and had it surveyed into lots for each family. They have built small houses on their several lots along the beach and began to clear their lands and raise some vegetables They have organized a kind of police to take up and try any one who drinks and lock the guilty in the 'skookum' house They have learned to sing some hymns and every Sunday they meet in a large house built by them and sing over their hymns Their little village is orderly

At the last court in Port Townsend eight whisky sellers were indicted in Judge Lewis court and the hope is that these Indians will not be again tempted by such traders

These items show that the Indians have the idea and wish to support themselves and live in better homes, if allowed and encouraged to do so

The OREGONIAN of the 27th, has the following facts

The census of Indians on the Umatilla reservation is as follows Males 21 years and upwards, 305; males under 21 and over 10 [illegible] males under 10 years, 80 females 18 years and upwards 378 females under 18 and over 10 years 100 females under 10 years 78 The Indians on the reservation have 1 500 acres of land under cultivation they produced 4 000 bushels of wheat, 2 000 bushels of oats 60 bushels of rye 200 bushels of corn and 400 bushels of potatoes They have on their reservation 1 0[illegible] head of sheep, 8 000 head of horses 25 hogs 3 000 head of cattle and 15 mules

If the government will grant every Indian family on the Umatilla reservation a patent for fifty acres which they have cultivated as it has done to these Sioux the Indians will solve their own problem of self support It is true they will need some protection from sharpers and whisky traders but they will be able to earn money or raise crops and buy what they need as other people do The point to be gained is to stop buying food and clothing and utensils and giving them annually to the Indians Let them work and buy their own goods as other people do

The Monmouth Messenger says: A good many new students entered on last Monday, and our number will constantly increase for many weeks yet. We are certain to have the finest school this year ever known in Monmouth.

There will be a meeting held on Monday, Nov 1st, at 2 o'clock P M, at the court house in Albany for the purpose of soliciting contributions to represent to the world the productions, arts and natural curiosities of our country at the great Centennial exposition

Mr Lewis Stimson arrived in Albany Friday evening last week with 83 head of fine beef cattle all the way from the bunch grass on the headwaters of the Palouse river, in Eastern Washington Territory This is a long drive occupying just 30 days They crossed Snake river north of Walla Walla, and drove south to the Ochoco country crossing from thence via the Santiam military mountain road. The cattle arrived in fine order

PREVENTING ESCAPE OF HEAT—Experiments have been made at Mulhausen to ascertain what kind of coating best prevents the escape of heat from steam pipes After numerous trials it was found that chopped straw was the best, and that it reduced the loss of heat by radiation from the bare pipes sixty-six per cent. The next best was a pottery pipe large enough to cover the steam pipe and leave an air space The pottery pipe was coated on the outside with loamy earth and chopped straw kept in place by straw bands twisted round the pipe This reduced the loss sixty-one per cent. The next was cotton waste which, wrapped round the steam pipe to an inch thick, reduced the loss fifty one per cent. The next was waste felt from printing machines under which the reduction was forty eight per cent., and the last was forty-five per cent. with a plaster made of cows' hair and clay Experiments made with a view to test the effect of color showed that the coatings when painted white reduced the loss a further seven per cent Particulars of these experiments are published in the reports of La Societe Industrielle de Mulhause.—Chambers' Journal.

Ex-Senator Pease, of Mississippi now postmaster of Vicksburg, while in Washington recently confided to the National Republican his opinion that Gov Ames though "deader than Hector hopes by the means he is pursuing, to secure a legislature that will send him to the United States Senate The election takes place next January To reach the Senate was his ulterior purpose in becoming Governor All his appointments are made on the condition that his appointees shall support him for the senate.

FRIDAY MORNING OCTOBER 29, 1875.

JUDGE LYNCH.

Among the institutions belonging peculiarly to American civilization the court commonly known as Judge Lynch's court occupies a prominent place. Its jurisdiction is exclusively criminal and its code of practice entirely free from the limitations and restrictions which hamper the proceedings in other judicial tribunals. Its remedies are summary and its sanctions in most cases are such as thoroughly secure safety against any further trouble from the vicious offences of those who have once been arraigned at its bar. It is not a court established by the written constitution of the nation or the State or erected by virtue of legislative enactment nor has it that prescriptive antiquity which is generally recognized in the legal profession as the foundation of all those institutions which though not traceable to any statute or charter, are nevertheless respected as a part of the law of the land. The ancient common or unwritten law is that body of customs which have existed so long that "the memory of man runneth not to the contrary" and it is generally supposed that any institution to maintain [illegible] other basis than that of a specific warrant from the sovereignty must be capable of being traced back into that dim past where the line of descent though not the fact of its existence, ceases to be discernible. But Judge Lynch's peculiar system of judicature is an exception. The memory of man—in fact the memory of middle aged men who will read this notice—reaches back to a time when that system was unknown. But it is a well established jurisdiction nevertheless. Although its irregular methods have caused many persons to decline giving it their direct support and have even occasioned [illegible] taking jurisdiction [illegible] cases still its decrees are enforced without serious obstruction in almost every part of this christian country. The reports of cases determined in this court are usually short and not robbed of their dramatic force by any of that formality of arrangement and expression which characterize the reports of decisions in the other courts of the country. In general they are pretty much alike and this one which recently came from Baton Rouge, Louisiana, will serve as a model:

> A woman in the family of Mr Saunders yesterday administered to him a solution of arsenic in a cup of water with the intention of poisoning him. Saunders did not die but public indignation against the woman at once ran very high. She was arrested and confessed her guilt. In her confession she implicated her brother in law one John Gair. He also was arrested. While the deputy sheriff and his company were taking this prisoner to Clinton for lodgment in the jail a mob of persons seventy in number met the party took Gair from the languid hands of the officers of the law, and shot him in the road. Meantime another mob or a detachment of the first, went to the Clinton jail, which seems to have been insecurely guarded on this occasion and took therefrom the imprisoned woman and hanged her to a tree in the court house inclosure.

This report may shock the nerves of some people to the extent of extorting from them a remark that they doubt the propriety of such proceedings. It will hardly provoke any stronger expression of disapprobation. The impersonal Judge Lynch that is the mob who forcibly took this man and woman out of the custody of the officers of the law and executed the death sentence upon them without the form or the substance of a trial upon suspicion that they had attempted but unsuccessfully to destroy the life of another person go at large in the community and doubtless receive the same civilities at the hands of society which they received before they committed the crime of murder. And it is not in Louisiana alone but all over the country. To-day it is in Illinois that a case of this sort occurs. To-morrow it is in Georgia. Then in Western New York or Pennsylvania, and now in Missouri or Iowa. No attentive reader can have failed to note the frequency of these cases and the fact that no one is ever punished for murders committed in that way. As we said, this mob law is become one of the recognized and established institutions of the country.

Lynch law sometimes renders justice. Sometimes the life it takes is a life that has been forfeited. Let it be said that this is so in a majority of cases. Still the fact remains that many of its victims are innocent men and women. It strikes the right man by chance or by the intuitions of the mob, when it strikes the right man at all and it strikes the innocent far too often. Besides it is organized lawlessness. The cases that are so clear they can be safely dealt with in this summary way are so clear that they can safely be entrusted to the regular courts. There is no excuse for these lawless proceedings in a country governed by law. But instead of passing away as the administration of law becomes more steady and certain these mob trials, or rather executions without trial become more and more frequent. Within a month no less than five of these cases have been reported in our telegrams. It is time for public sentiment to be awakened on the subject. It is time for law abiding people to speak out in condemnation of such savagery. It is time for the press all over the country to sound a charge upon the mobs. It is time for the officers of justice to set themselves about hunting down this class of criminals the same as any other class that become dangerously numerous.

The most complete success has been attained in New York in the equalization of State taxes. This is the way it has been worked out. The majority of the State assessors whose duty it is to make the equalization represent the rural districts and they have equalized by adding $41 000 000 to the assessed valuation of New York City and $11 000 000 to that of Brooklyn while they have reduced the valuation of the remainder of the State $12 000 000. The result is that in New York City the State tax amounts to $8 per capita for the entire population and the city is charged with more than half the State levy though it contains less than one fourth the population of the State. In the rest of which except Brooklyn and Kings county the tax amounts to but $[illegible] 50 per capita. This with the enormous city taxes added makes the city more than ever that of the worst tax robbed city on the continent.

THE POLITICAL STATUS OF OREGON.

The *Evening Journal* expresses the opinion that the late election in this State settled the question as to the political status of Oregon. To prove that this is so that paper reasons as follows:

> Whitney's vote in the entire State will not reach over [illegible] thousand when the last returns come to be counted, if it goes above five hundred. In the counties where last year Davenport polled his largest vote, with the exception of this county, this year we find the heaviest Republican majorities and the returns from Douglas, Marion, Washington and Yamhill counties are proof of this much. Now if, after the Republican party has absorbed the Independents who are Republicans in sentiment and has made what has been truly a square fight against the Democratic party, carrying with it the weight of the defeat of the party in Ohio, Iowa and Nebraska elections and the prestige afforded the opposition by the agitation of the school question, then there remains not the slightest doubt that Oregon is Democratic from choice and not from chance and is certain to elect a Democratic legislature in June next and thus her vote for the Democratic candidate for the Presidency in 1876.

If the returns already in are to be taken as a safe criterion by which to judge the entire State, it is unquestionably true that Whitney's vote will not reach one thousand. It is also true that in those counties where the Independents were strongest Warren has received his largest vote. That fact might indeed have been stated even more generally than the *Journal* states it for the exception it makes—the exception of this county is not an exception, Multnomah not being one of the counties in which the Independents were strong, or to use the *Journal's* language, "where last year Davenport polled his largest vote." On the contrary this is one of the counties in which the Independents polled a comparatively light vote. Davenport was beaten in this county 777 by the Republican candidate Mr Williams, who received within a few votes of the whole number cast for the Independent and Democratic candidates together.

The Independent Republicans have given Warren his principal support in this election. That is very apparent. But it is not apparent how the facts in the case can be logically construed as proving that the State on a full vote is Democratic. The opposite is the more rational conclusion. The fact that Warren did not receive his heaviest vote in the counties in which the straight Republicans polled their heaviest vote last year would seem to indicate that the falling off in the aggregate vote for Warren this year was largely because the straight Republicans of last year did not bring out their full force on last Monday. And yet Lane's majority which on the evening of the election day appeared likely to be from 1,200 to 1,500 grows "small and beautifully less" as the returns come in from the interior till he may yet be glad to get away with a bare plurality of five or six hundred. Instead, therefore of warranting the conclusion that on a full vote with the Republican voters all united the State is Democratic, the logical deduction is that on such a vote the Republicans may hope to carry the State next year by a handsome majority. The chances are more than even that Oregon will cast her vote for the Republican candidate for President in 1876.

THE ELECTION.

The election returns come in very slowly, owing mainly to the fact that the telegraph lines have been prostrated by the storms most of the time and are still working badly. As the reports arrive however, the estimates of Mr Lane's majority must be constantly reduced. At first it appeared he had probably a majority of 1,200 or upward. Then the next returns, showing he had failed of getting anticipated majorities in some of the Democratic counties made a modification of the estimates necessary. So it has gone till it now appears altogether improbable he has over five or six hundred plurality with the chances in favor of a still smaller margin. Should Lane's vote east of the mountains fall far below the usual Democratic majority thrown in that section of the State he is elected if at all by no larger plurality than that by which Mr LaDow was chosen last year.

The *Temperance Star* appears under another name,—the STAR OF THE WEST, and announces that it will suspend publication till the first Thursday of December. The cause assigned is that the paper has been since its first issue financially a failure and it is necessary for its business manager to be absent from the office on a tour through the valley to solicit subscriptions.

Among the Alabama claims lately presented to the commission, is one for inferential damages, on account of the profits that were *not* realized because the ventures which were to produce them could not be gone into while the *Alabama* was cruising around in search of good things.

Charles Bradlaugh is lecturing on "Five dead men I have known." We have seen no statement of who the five dead men are but the Chicago *Tribune* says they are Gov Allen, Gov Hendricks, Pig iron Kelley, Sam Cary and Ben Butler.

The Supreme Court of Michigan has just rendered a decision affirming the constitutionality of the law passed by the legislature of that State levying a special tax on the sale of spirituous liquors.

The Chicago *Tribune* the editor of which was formerly one of the ablest advocates of tariff, is now a stout free trader and gives more of his editorial space to that subject than to any other.

REAL ESTATE
AT AUCTION.

Large and Attractive Sale of Valuable Property,
TO BE HELD AT SALESROOM OF OSCAR KILBOURN,
On Saturday, Oct. 30, 1875.

Comprising the following list of City and Country Property:

The west half of that valuable tract of Land known as the "Kittredge Claim," containing 267 6 10 acres of choice Timber Land. This property is only 2 miles from Couch's Addition to the City of Portland, and is easily accessible by the New County Road just completed, which runs directly through the Kittredge Claim and gives it an immediate market value. The Timber on this land, so near to Portland, is of great value, and when cleared off can be divided up into Homestead residences within easy access of town.

Lot 1 in Block 128, situated on S. W. corner of First and Columbia streets. This is choice Business Property, well located, and is on the corner of the Bridge street as adopted by the City Council and the Secretary of War.

Lot 2 in Block 128, with elegant Dwelling House, adjoining the above mentioned property. Street Cars pass the door every 10 minutes. This property is particularly desirable for Physicians, or other professional men who desire to live within easy access from all parts of the city.

80 Acres of Choice Timber Land on the Taylor Ferry Road, about 2 miles from the Red House. Excellent soil, with Swale Land running through it and well adapted for a market garden.

320 Acres of selected School Land, in Columbia County, being the west half of Section 16, township 5, north, range 3 west. This Land was specially selected by the Surveyor of the School Land as being the choicest Section in the country.

Lots Nos 3, 4, 5 and 6 in Block No. 110 in the City of Portland. This Property is very desirable, being centrally located and fully improved one of the best locations for residences.

ALSO

That very Desirable Property corner B and Third streets, Couch's Addition, being part of Lots 1 and 4, Block 29; 78 ft on Third street by 80 ft deep.

ALSO,

80 Acres School Land, 8 miles from East Portland, on the Base Line, well Watered Bottom Land, with Vine Maple and Alder, easily cleared.

ALSO

21 Acres 1 mile east of Holladay's Addition cleared last year.

For terms of Sale and full particulars apply at the Auction Salesroom of
OSCAR KILBOURN, Auctioneer.

DESIRABLE PROPERTY IN OLYMPIA W T.

"ARE YOU GOING TO PAINT?"

GILROY, March 1 1875.

TO WHOM IT MAY CONCERN: In an experience of three years with the Averill Chemical Paint in more than one half the jobs have chalked, peeled or cracked off notwithstanding the Paint was warranted to do neither, and out of sixteen failures the California Chemical Paint Company have refused to furnish Paint to repaint but six of the sixteen. I refer to the following houses that have cracked, peeled and chalked off in this place: James Corey, H. C. Morey M. D., Thomas Darrough, E. J. Bryant, F. H. Farmer, Frank Oldham, J. B. Trickey, [illegible] Woodward, Thomas Rea, P. Ball, D. Whitney, William Wilson, J. M. Ehnest, E. B. Hitchcock, J. A. Baxter, Music Hall, Catholic Church, and I might mention many more.
J. B. RHINEHART, Painter.

23 POST ST. SAN FRANCISCO, Sept. 11 1875.

To Proprietors Chemical Paint Company—Gents: I had my house in Oakland painted with your paint. It was warranted to be good and satisfactory in every respect. I was obliged to have the third coat put on to make it look as if it had been really painted, and even then I think one good coat of Lead Paint would have given the house a better appearance. I think you ought to make up to me the loss I sustained besides the annoyance I felt, knowing that an inferior article had been put on when a No. 1 article had been promised. Hoping to hear from you soon on the subject, I remain,
Yours, resp'y, DR. HENRY KNOX,
Dentist, 23 Post street, San Francisco.

GILROY, Sept. 4 1875.

To whom it may concern: Seeing in various papers that the California Chemical Paint Company continue to deceive people by saying that the Averill paint will neither peel, crack nor chalk off, I deem it my duty to say that my house painted with the above named paint in the fall of 1873 failed in less than eighteen months after being painted, by peeling, cracking and chalking off in the worst manner imaginable. I also observe that the company have my name in their printed matter as reference; this was done without my knowledge or consent.
E. J. BRYANT.

GILROY, March 1875.

To whom it may concern: My house painted with the Averill Chemical Paint in June, 1873 failed in a little over one year after being painted, by chalking, peeling, washing and changing color, [illegible] light color to one dark. The California Chemical Paint Company are unwilling to admit this and yet continue to deceive the public by saying that the Averill Paint will not peel, crack nor chalk.
THOMAS DARROUGH.

GILROY, Sept 4 1875.

To whom it may concern: My house painted with the Averill Chemical Paint, manufactured by the California Chemical Paint Company of San Francisco about two years ago, failed in less than one year after it was painted by chalking off and changing color and I had a portion of it repainted.
J. B. TRICKEY.

GILROY, Sept 4 1875.

To whom it may concern: I had my fence painted in the fall of 1874 with the Averill Chemical Paint, which was represented not to chalk, peel or crack off, but it chalked off in three months after it was painted.
P. BALL.

Then Use the "Rubber Paint,"
The Best Paint in the World.

SAN JOSE, Cal., March 20 1875.

Pacific Rubber Paint Company, San Francisco—Gentlemen: I have used and sold the Rubber Paint in this city during the last four years. We have about one hundred buildings painted with the Rubber Paint. Among the prominent ones are the State Normal School, Gates Institute, City Market, the residence of Josiah Belden, J. W. Hinds, President Gold Note Bank, J. R. Arquello, Santa Clara, etc. It has never failed to give satisfaction with a test of from one to four years, so that its durability has been well tested. My sales last year were nearly five thousand gallons.
Truly yours, AMASA EATON.

OAKLAND Cal., March 22 1875.

Pacific Rubber Paint Company—Gents: My residence painted with the Rubber Paint about eight months ago so far has proved all you claim for it. It is as bright and beautiful as when finished.
Yours etc., WALLACE EVERSON.

SAN FRANCISCO, March 22 1875.

Pacific Rubber Paint Company—Gentlemen: I have used your Rubber Paint on my yacht; thus far the action of the water has had no effect upon it, so far as my experience goes the Rubber Paint is the best paint ever used for painting vessels, especially in salt water. It adheres firmly to the wood, does not peel and retains its gloss.
CAPT EDWIN MOODY.

ALVARADO Cal., June 10 1875.

Pacific Rubber Paint Company—Gents: We, the undersigned, interested parties in the Odd Fellows Hall of this place feel it a duty as well as a pleasure to say to you that we are highly pleased not only with the appearance of the Rubber Paint on our hall but think it at least *twenty per cent cheaper* than any paint we could have used, and we also recommend it to all as *superior to any other paint* as regards its covering and spreading qualities.

SALEM Oregon July 9 1875.

Pacific Rubber Paint Company—Gents: After a careful and accurate test gallon for gallon of Atlantic Lead and Linseed Oil and the Rubber Paint of your manufacture and the Averill Chemical Paint, I find the Rubber Paint to cover more surface—[illegible] it works [illegible] the gallon than Lead and Oil Paint and [illegible] more than the Averill Chemical Paint.

FRIDAY MORNING, OCTOBER 29, 1875.

CITY.

AN EXHIBITION OF ART.—Yesterday was the gathering of scores of ladies and gentlemen who assembled to examine the very handsome collection of oil paintings which are advertised to be sold at Raleigh's building on First street, at auction by A. B. Richardson. The catalogue embraces copies from the old masters, and originals by the best of contemporaneous painters. The exhibition is one of the choicest and most instructive that has been made on the Pacific coast. It is not improbable that when exposed for sale by the auctioneer many of these works of art will be sold much below their value and it will be the fault of our art-loving community generally if such handsome productions of brain and pencil are not scattered broadcast among our homes of taste and refinement. There are sermons in pictures quite as powerful as those emanating from the pulpit, and no home is complete in its surroundings of beauty without some display of that quiet taste which takes shape in an exhibition of art. In looking upon such a congregation of excellences as we have referred to the only trouble is that one scarcely knows when to cease choosing from the array before him or how not to envy those whose lengthened purses give them the advantage of gratifying their desires. The catalogue embraces 102 paintings, grave and gay, lively and severe, and though there may be some who will not be purchasers we think that our citizens, especially the ladies, may enjoy an hour or two of rare entertainment by a visit to the gallery. The exhibition is, of course, free, and this is the last day prior to evening of the sale on which the public are likely to see this rare display of art. Go and take your wives, sisters, daughters and sweethearts.

LEAVES OREGON.—Mr. Yocum, an old and highly respected citizen of Yamhill county will take his departure to-day for his old home in Michigan, where he expects to permanently reside for the future. For several years Mr. Yocum has been afflicted with a throat disease which has nearly destroyed his voice and renders it impossible for him to hold a conversation louder than a whisper. Several physicians have strongly urged upon the old gentleman a change of climate, and have told him that he cannot hope to long survive the insidious encroachments of the disease if he remains in Oregon. At length Mr. Yocum has yielded to the advice of his physicians and the persuasions of his family and friends and resolved to bid adieu to Oregon. Mr. Yokum has resided in Oregon upwards of a quarter of a century, and his reluctance to leaving the State of his adoption may well be imagined. Half his life has been spent in Oregon, and he had long hoped that his bones should rest in her soil, but it seems that fate has decreed otherwise.

HEAVY STORM.—Astoria and vicinity was visited on Tuesday evening by a heavy wind and rain storm, which continued for some time and did some damage. The steamer *Dixie Thompson* which was lying at the wharf there, was caught and twisted around pretty lively. A pile driver was capsized near Trullinger's new wharf and the boiler and engine which were on board, were precipitated to the bottom of the river. For several days past the steamer *Astoria* has been engaged in grappling for the lost machinery and boiler, but has not succeeded in recovering them. The little steamer *Jane West* had a portion of her cabin blown off. Fortunately none of the vessels which were lying at anchor opposite Fort Stevens were damaged by the gale.

DELAYED ELECTION RETURNS.—As yet we are unable to lay before our readers the official vote of Multnomah county, for the reason that the returns have not been canvassed as required by law. Mr. Story, the county clerk, is in no manner whatever responsible for the [illegible] delay, as the returns of all the precincts have not been sent in. Two precincts remain unreturned—Powell's Valley and Elden. There appears to be no good reason for the [illegible] of the returns, and they should have been forwarded to the clerk on Tuesday.

NEW LOCAL PLAY.—Mrs. F. M. Phelps has [illegible] in Portland over Monday, for the purpose of presenting on that evening at New Market Theater, a new play entitled "A Night in Portland," from the pen of a well known literary gentleman of this city of acknowledged ability. The play is a [illegible] in four acts, founded on incidents of the 2d August fire of 1873. By those who have read it, the play is said to possess considerable dramatic merit, abounding in local scenes and incidents of an interesting character.

A MITE SOCIETY.—A Mite Society, for the benefit of the Hall street M. E. Sunday school was organized on last Friday evening at the residence of Rev. J. Flinn. The following officers were elected: President, Miss Maggie Connell; secretary, Miss Carrie Caples; treasurer, Miss Ada Mendenhall; advisory committee, James Foster, Miss Florence Flinn, Gideon Thomas, Miss Belle Watts and Douglas Jones. The society meets every Friday evening (for the present) at the residence of the pastor, at 7 o'clock, and closes at 9 o'clock.

ACTION FOR DAMAGES.—The case of Charles Grant vs O. S. S. Co., will come up for trial this morning in the State circuit court. The case was set for trial yesterday afternoon but was crowded over owing to the time of the court being occupied in hearing the cause of State vs C. H. Cameron. Grant was employed on board the ill-fated steamer *Senator* at the time of the explosion, and brings action for the recovery of damages. Considerable interest is felt in the case.

HEAVY FALL.—A little son of Mr. L. B. Phillips, aged about eight years, met with a very severe fall yesterday afternoon. He was playing on a high bridge near Weidler's Mill and lost his balance, fell to the ground, a distance of twenty-five feet. Fortunately no bones were fractured, and the child sustained no more severe injuries than a heavy jar. Dr. Kinney was called and rendered what medical assistance was required.

REQUIRES ASSISTANCE.—A contemporary states that there is a large immigrant family lately from the devastated regions who are residing about two miles east of the city and five of them are sick abed and pecuniary help is very much needed and Mrs. Pierce is making a collection for their relief. Any clothes, money or household requisites will be thankfully received.

JURY DISCHARGED.—The jury in the case of State of Oregon vs Willie Reynard, was discharged yesterday in the State circuit court having failed to agree upon a verdict. The case was submitted to the jurors on Wednesday afternoon, but they having declined to return a verdict up to yesterday noon the court discharged them.

FOUND GUILTY.—The time of the State circuit court was consumed yesterday afternoon in hearing the case of State vs C. H. Cameron, indicted for embezzlement. Late in the afternoon the case was submitted to the jury. After a short deliberation the jury returned a verdict of guilty as charged in the indictment.

SYMPTOMS FAVORABLE.—Gen. Howard, Capt. Wilkinson and Dr. Bailey arrived safely at Walla Walla on Wednesday. A dispatch dated the 27th sent by the general states that Capt. Bladen's condition is such as to warrant hopes. His symptoms were quite favorable when the telegram was sent.

THE TURF.

The following horses arrived at Victoria on Tuesday to take part in the Prince of Wales races, on the 9th prox.: Mr. Coggan will have horses—All sired by Jack Minor; Fanny Filly, Lily Long, by Jack Minor and dam Brown Gelding, Norwich, by Norwich and Don Young, sorrel horse Billy Bigham by Dr. Lindsey; Mr. Bigham's chestnut horse Foster, by Lexington, dam Vernon, sired by Yorkshire. The fast horses Tom Merry and Dan[illegible] have also arrived there.

RELIGIOUS INTELLIGENCE.

RELIGIOUS LOCAL, PERSONAL AND GENERAL.

[From the Advocate.]

Judge Bronaugh will lecture in Vancouver on Wednesday evening Nov. 3d at the Methodist chapel for the benefit of the church. Subject: "Prophecy."

It is thought that the Hall street M. E. church, Rev. J. Flinn pastor, will have to be enlarged for the present year in order to make more room for the congregations.

We understand that the Sheridan academy will reopen on Monday next. Mr. I. W. Fel[illegible]ton, a teacher of experience, has been secured as principal and Miss Miller as assistant and teacher of music.

Rev. A. B. Smith, pastor of the A. M. E. Zion church of this city, left on the last steamer for San Francisco to attend the session of the annual conference of that church to be held in that city. During the absence of Mr. Smith his pulpit will be supplied regularly by Rev. W. C. Chattin and others.

[From the Sentinel.]

Catholics in this parish who have not as yet performed the jubilee will have an opportunity of commencing on next Monday morning at 8 o'clock, at which time a special mass will be celebrated and continued during the fifteen days.

According to diocesan ordinance the annual collection taken up in the cathedral on the feast of all saints is donated toward the support of the thirty poor orphans under charge of the Sisters of the Most Holy Names in this city. The festival will be celebrated next Monday.

Next Saturday, the Vigil of All Saints, will be a fast day with the usual obligations. The following Monday will be the feast of all Saints, a holiday of obligation. Masses in the cathedral at 6, 8 and 10 A. M. Vespers at 7:30 in the evening. Tuesday will be the commemoration for All Souls, when every Catholic should remember their deceased friends in the solemn office for the dead. Requiem mass at the cathedral at 9 A. M. Evening service at 7½.

THE COURTS.

Cordelia Flowers vs Allen Flowers; referred to J. Simon to report law and facts.

State vs Willie Reynard; jury failed to agree and were discharged by the court.

Tyler Woodward, a juror, excused from attendance.

Sorensen & Taylor vs Coung Loung & Co.; dismissed at cost of defendants after the jury was impanneled.

John Leonard, a juror, excused till Nov. 9.

State vs C. H. Cameron; jury impanneled and cause on trial.

Sheriff ordered to summon three jurors.

AMUSEMENTS.

"Sea of Ice" was rendered in good style, last evening to a fair audience at New Market Theater. Concluding the performance the ludicrous farce of "Country Cousin" was presented which was capitally rendered, and sent the audience away in splendid humor. This evening Miss Zoe Gayton will be the recipient of a complimentary benefit, on which occasion an immense bill will be rendered, consisting of the "Corsican Brothers" and the "French Spy." On this occasion a crowded house may be anticipated. To-morrow afternoon a matinee performance and to-morrow evening positively the last night of the season but one.

POLICE COURT NOTES.

Harry Hastings, a confirmed inebriate was committed to the city jail for 10 days.

Thomas Brien, for conducting himself in a disorderly manner, was sentenced to the jail for five days.

A fellow calling himself Thomas Jones pleaded guilty to a charge of drunkenness and was fined \$5.

Four sailors from the ship *Lancashire* entered a plea of guilty to a charge of drunkenness and were each fined \$5. Failing to "pungle," these jolly sons of Neptune were committed to jail each for three days.

BUSINESS NOTICES.

Physicians will note advertisement elsewhere.

A very handsome and elegantly executed painting from the brush of H. Hall is on exhibition at the Cosmopolitan Saloon and will be raffled for. A good chance to secure a fine painting.

Mr. P. Selling returned recently from the Bay City with an immense stock of goods for the winter months so near at hand. Everybody should read his advertisement carefully. Call and examine the new goods.

MILITARY NOTES.

Captain Harry M. Smith, 21st infantry, is appointed to act as inspector on 292 pounds Hancock's tobacco, at Fort Lapwai, I. T., for which Second Lieutenant Edwin H. Shelton, 1st cavalry, post commissary of subsistence, is accountable.

In the case of Private Henry Copley, band 21st infantry, tried by general court-martial (general orders No. 21, current series), and sentenced "To forfeit to the United States \$12 per month of his monthly pay for the period of two months," upon the recommendation of the regimental commander the unexecuted portion of the sentence is remitted.

PERSONAL.

We observe by a Victoria exchange that Gen. Selby Smyth, of the British army, who visited this city a short time since, accompanied by his suite, will leave for Ottawa to-morrow, having completed all necessary inspection of the various military posts in British Columbia.

SOCIAL EVENTS.

This evening there will be a social hop given at Good Templar hall, corner of Alder and Third street, under the auspices of the Jolly Companions.

Take a cup of coffee at Faber & Barnes' Central market, this morning.

Call on Fishel & Roberts to-day and leave your measure for a new style suit cut from the finest cloths. They can accommodate you in every way at this house. Be sure to look in when you are passing that way.

The party given last evening at the Armory of City Rifles was numerously attended and a very pleasant social time was experienced. Brenner's Quadrille Band furnished excellent music and Prof. Ryder called the figures.

Drs. Adams & Owens, First street, bet. Taylor and Yamhill, have on *Hot and Cold Baths*, which work wonders in curing rheumatism and other chronic diseases.

Mr. John O'Neill, the popular merchant tailor, took his departure on the steamer for San Francisco, where he goes to lay in a large stock of goods. Immediately on his return to Portland Mr. O'Neill will occupy the large storeroom on the corner of Stark and First streets, formerly occupied by S. J. Marsh & Co. He will have a first-class tailoring establishment and also keep a large and fresh stock of gents' furnishing goods. Mr. O'Neill will return in a few weeks, when he will be pleased to meet all his old friends and customers, of whom John has scores.

It has become an established fact that the cheapest place in the city of Portland to buy Crockery and Glassware is at E. W. MONNASTES, 150 First street, between Morrison and Yamhill. He is in receipt of New Goods by every steamer and calls special attention to his large stock of Rogers Bros. Plated Ware and his splendid assortment of House Furnishing Goods.

BRIEF NOTES.

Matinee to-morrow afternoon.

Zoe Gayton's benefit this evening.

The O. S. N. Co.'s line was all O. K. yesterday.

The steamer will sail to-day at 1 o'clock for San Francisco.

The steamer *Gussie Telfair* is overdue at this port from Sitka.

Two wagons collided a few days ago resulting in a general smash up.

Mr. Pershin and party returned a few days since from a surveying tour in South-Oregon.

The steamer *Champion* arrived yesterday from up the river bringing down a full freight.

After the storm comes the calm. One would naturally repeat this quotation on comparing Wednesday with yesterday.

The steamboat companies and wheat shippers are jubilant. There will soon be a good boating stage of water along the Upper Willamette.

Mr. David Barman of East Portland was thrown from a wagon on Wednesday and run over. Fortunately no serious injuries were sustained.

A late number of the *Sunday School Times* contains a long and interesting letter from the pen of General O. O. Howard about his recent trip to Alaska.

An uncalled for message remains at the W. U. T. Co.'s office for C. O. Clark. This notice should have appeared in yesterday's issue but was unintentionally omitted.

The annual fancy fair for the benefit of the numerous orphans under care of the Sisters of Charity, at Vancouver, will take place on the 9th, 10th and 11th of November.

Since the opening of St. Vincent's hospital last July 77 patients have been admitted. Of this number 30 at present remain. During the present month 25 patients were admitted; 27 were discharged cured.

Ed. Gallagher who it was thought had received fatal injuries some weeks ago during a row at the Lousy Saloon is reported to be beyond danger and will soon appear upon the streets.

Rev. W. P. West, an old citizen of Jefferson, returned on the last steamer from an eighteen months' tour through the Eastern States and Canada. He went for the benefit of his health and returns greatly invigorated in body and mind.

A few days since as a young man who had been ill for some days was walking up stairs he became dizzy when about half way up and fell to the bottom, which rendered him unconscious. He has been removed to St. Vincent's Hospital.

A FIJIAN PLAGUE.

THE OLD CANNIBALS STARVING—FORTY THOUSAND DEATHS IN FOUR MONTHS—BURYING PEOPLE ALIVE.

Further information from Fiji conveys still darker accounts of the plague which has recently passed over the new colony. A resident long standing, writing to a Victorian contemporary, says: "The death rate is not yet made up but the probability is that 40,000 Fijians died during the four months' plague. The native population of Fiji is now about one third only of what it was when I landed here about twenty five years ago. The accounts given of the magnitude of the disaster are less harrowing than those of the sufferings of the victims. Very few died of the measles, the majority dying of subsequent disease in the form of dysentery, congestion of the lungs, or want of nourishment or starvation carried off thousands. We are told that all work was suspended for two months. You could pass through whole towns without meeting any one in the streets which were so completely covered with grass. Entering a house you would find men, women and children all lying down indiscriminately, some just attacked, some still in agony and others dying. Some who were strong enough attempted suicide, and not always unsuccessfully. We are further told that as the scourge became more permanent four or five were buried together in one grave and generally without religious service. In some cases the dead were buried in the earthern floors of the houses. In others just outside the house. The burial was hurried and the probability is that some were buried alive. In many instances the husband, wife and children all died. In one village all the women died and in another all the men. It is interesting to read of the different mental effects produced by the torture of disease. It is not surprising to find that some made fruitless appeals to their ancient god. Some inland tribes who had only recently embraced Christianity considered that the disease was conveyed by their religious teachers and they dismissed them and then abandoned their new religion. Among these some were for killing their teachers but their wiser counsels prevailed. It is said that one tribe buried alive the teacher's wife and child whose husband and father had died of the plague, to stop infection." But while some in their distress fell back on their former superstitions, the greater number are said to have borne their calamity with fortitude and to have suffered and died under the influence of Christianity.—*Sydney Herald.*

They are way up for the money—those cigars known as O'Brien's Favorite.

Twenty thousand persons visited the State Fair and the railroads and other modes of transportation were taxed to their utmost in carrying the immense outpouring of the people. A large proportion of those seekers for pleasure and profit visited the establishment of Beck & Waldman, First and Washington streets, for the express purpose of buying from the immense stock of clothing displayed to the gaze of the public. The prices seem to please all. Youths' clothing is a specialty at this house.

The Elegant Establishment of JOS. KOHN, corner of First and Morrison streets, has been literally stuffed with fall and winter goods, which they are disposing of at a lively rate, for the reason that Kohn has made some excellent selections and what is more, the prices are ranging exceedingly low. When you want anything pleasing in clothing no better chance to find it is offered than at Kohn's. Be sure and call when you find it necessary to purchase.

Some cause may be found for the apparent scarcity of coin [illegible] in the fact that the Eastern drain of gold which has been large and continuous up to the time of the crash in San Francisco has [illegible] and as this draft affects all parts of the country in proportion as relations of a business nature are sustained to the points where the shipments of specie are made [illegible] San Francisco so our state in a degree feels the [illegible] [illegible] New York [illegible] [illegible] we could ill afford to part with it. Here [illegible] for Eastern purposes. Our statistics show that we have sent abroad treasure since January 1 1875 [illegible] October 1st the amount of $ [illegible] against same time in 1874 of $23 000 000 [illegible] From this exhibit it is not to be wondered at that money is scarce on the entire coast and that only such accommodations are furnished as are consistent with the strictest policy of conservatism and though the mercantile community as a rule make but little complaint outside enterprises and speculation are regarded with disfavor by those who hold the money that is left in the country. A [illegible] exchange from San Francisco [illegible] matters [illegible]

[illegible] last week [illegible] holders cannot get a hearing [illegible] [illegible] supposed to hold coin. All the banks are playing [illegible] [illegible] third the amount which [illegible] [illegible] farmers experience in securing any advance [illegible] [illegible] cannot be got till the great staple [illegible] wheat [illegible] was formerly hypothecated with eagerness

Domestic Produce

Some important changes in prices are noted [illegible] where. Just what has induced the decline in wheat is a difficult matter to decide though shippers would be more apt to inquire what induced the advance to $1 82@1 85 which were given as the quotations yesterday. The claim now is that those figures were not justified by the markets, but they were paid nevertheless and hence we gave them but matters are very much changed to-day and buyers here quote $1 75 as the outside figure and even at this some of them are indifferent about purchasing claiming to have sufficient to load the vessels at hand or in sight. Our San Francisco dispatches note but little change in that market. Flour is in fair supply at the figures which have ruled for the past two weeks. Mill feed is firm at quotations with moderate receipts. Hay in fair supply and good demand. Oats are still held at 60 cents sacks included for all fair lots with rather light receipts. Dairy products of all classes are in active demand sellers of choice butter fix their own prices though common roll and solid or in brine can be had at our quotations. Bacon is in very liberal supply at present and shipments being dull there might be trouble in placing large lots. Eggs to-day are held at 40 cents by jobbers though this rate may not be continued beyond the sailing of the steamer there being only a temporary scarcity in the market.

Our report of the sale of 2 000 bushels of wheat last Tuesday should have read Hallett's as the [illegible] of purchase instead of Halsey.

The weekly Liverpool telegrams of wheat quotations secured by us from Henry Jump & Sons are regarded as very important and we regret that for some reason they have failed to reach us this week.

Homestead Association

A Rare Chance for Profitable Investment.

IN CONSEQUENCE OF THE RAPIDLY ACCUMULATING interests and greatly increasing population property in the city of Seattle [illegible] prices [illegible] and in order to meet the demands of persons of small means such [illegible] the SEATTLE HOMESTEAD ASSOCIATION has been organized composed of some of the most responsible [illegible] [illegible] Lake Washington have been secured surveyed and platted [illegible] 60 feet by 120 feet [illegible] have been placed on the market for distribution and are now offered [illegible] the small sum of $75 for each lot payable monthly in six installments without interest. *A lot is thus placed within the reach of every man who may desire to purchase.*

In 1868 Seattle had a population of only 700 now 3000. A large number are daily seeking tenements and find great difficulty in procuring them, though buildings are going up in all directions the demand is still far more. The city of Seattle is beautifully situated on Elliott Bay Puget Sound. It has fine natural advantages and great resources with a most promising future. The three Coal Deposits now being worked with indifferent facilities by three different companies called respectively the Seattle, Renton and Talbot are producing **600 tons of Coal daily,** which does not supply the demand. The manufacture of lumber is also **an important and profitable business.** Ship building is an active industry with other mechanical and useful occupations encouraging to the investment of capital and labor. **Two opposing lines of Steamships direct to San Francisco,** afford unusual facilities for freight and passage every week. Seattle is destined to be the Pittsburgh of the Pacific Coast. Her material resources are inexhaustible. **Her Iron Coal and Timber** the three great commercial staples alone will make capital tributary to her interests. The valleys of the White Black and Cedar rivers tributaries of the Duwamish river which empties into the harbor of Seattle will support a large agricultural population.

Lake Washington, 20 miles in length and from 3 to 5 miles wide is about two miles in a direct line from the waters of the Sound. It is the intention of the incorporators of this Association, whose standing in the community is a guaranty of square dealing to open immediately an **Avenue** 80 feet wide extending from the bay directly east through the Homestead lands to Lake Washington in which charming locality will be erected the mansions of her business men. The Avenue will be properly graded paved and sidewalks laid at an expense of $15 000 and will constitute the chief drive and promenade from Seattle to the Lake. It will run along the City Park the College grounds and Lake View Park. Lots on either side will command at least four times the price paid. The Association will erect buildings for a **First Class Hotel** at the east end of the Avenue on Lake Washington. Plans and specifications can be seen at the office of the Company.

When all the lots are subscribed for the distribution will be made. **The Choice of Lots,** including the **Hotel** will be sold at public auction among the subscribers and the **proceeds be divided equally among them.** Due notice of the time and place of sale will be made. Warrantee deeds based on a United States patent will be issued to subscribers without charge.

Let no one doubt the future growth of Seattle. Nature has placed her in a position to realize the benefits of an immense traffic. **Her port is always open; neither ice nor shifting sand bars impede navigation. No pilotage or river towage to add to her freights. Clear sailing all the year round from her harbor to the ocean.** Consider the matter carefully. Think too what San Francisco was in 1849, what chances of a competency were lost in ignoring the future growth of that magnificent city as thousands can attest. Chicago in 1840 was but a small town to-day a great city the admiration of all. Let not this opportunity slip. **The small sum of $75, payable monthly without interest,** may make you comfortable and be a great benefit to your children. **There can be no other investment requiring so small an amount of money that can secure such ample benefits.**

POND'S EXTRACT

"Hear, for I will speak of excellent things."

POND'S EXTRACT—The great Vegetable Pain Destroyer. Has been in use over thirty years, and for cleanliness and prompt curative virtues cannot be excelled

CHILDREN. No family can afford to be without Pond's Extract. Accidents, Bruises, Contusions, Cuts, Sprains, are relieved almost instantly by external application. Promptly relieves pains of Burns, Scalds, Excoriations, Chafings, Old Sores, Boils, Felons, Corns, etc. Arrests inflammation, reduces swellings, stops bleeding, removes discoloration and heals rapidly

FEMALE WEAKNESSES. It always relieves pain in the back and loins, fullness and pressing pain in the head, nausea, vertigo

IN LEUCORRHEA it has no equal. All kinds of ulcerations to which ladies are subject are promptly cured. Fuller details in book accompanying each bottle.

PILES—blind or bleeding—meet prompt relief and ready cure. No case, however chronic or obstinate, can long resist its regular use

VARICOSE VEINS. It is the only sure cure

KIDNEY DISEASES. It has no equal for permanent cure

BLEEDING from any cause. For this it is a specific. It has saved hundreds of lives when all other remedies failed to arrest bleeding from nose, stomach, lungs, and elsewhere

TOOTHACHE, Earache, Neuralgia and Rheumatism are all alike relieved, and often permanently cured

PHYSICIANS of all schools who are acquainted with Pond's Extract of Witch Hazel recommend it in their practice. We have letters of commendation from hundreds of Physicians many of whom order it for use in their own practice. In addition to the foregoing, they order its use for Swellings of all kinds, Quinsy, Sore Throat, Inflamed Tonsils, simple and chronic Diarrhœa, Catarrh (for which it is a *specific*), Chilblains, Frosted Feet, Stings of Insects, Musquitoes, etc. Chapped Hands, Face, and indeed all manner of skin diseases

TOILET USE. Removes Soreness, Roughness and Smarting; heals Cuts, Eruptions and Pimples. It revives, invigorates and *refreshes* while wonderfully improving the Complexion.

TO FARMERS. Pond's Extract. No Stock Breeder, no Livery Man can afford to be without it. It is used by all the leading Livery Stables, Street Railroads and first Horsemen in New York City. It has no equal for Sprains, Harness or Saddle Chafings, Stiffness, Scratches, Swellings, Cuts, Lacerations, Bleedings, Pneumonia, Colic, Diarrhœa, Chills, Colds, &c. Its range of action is wide [illegible] [illegible] Farm yard as well as in [illegible] [illegible]

CAUTION! Pond's Extract has been imitated. [illegible] the words Pond's Extract blown in [illegible] is the only person living [illegible] [illegible] properly [illegible] Witch Hazel [illegible]
